

# Construction Project Feedback Form

**Purpose:** This form collects anonymous feedback from the construction team members to assess project management, site operations and team dynamics. Your honest response will certainly contribute to improve leadership, safety and project efficiency. All the responses will be confidential.

**Instructions:** Complete all sections carefully. Rate each statement from a scale of 1 to 5, where

- 1 = Strongly Disagree
- 5 = Strongly Agree

## 1. Communication

Rate the clarity, frequency and effectiveness of communication from the project manager to the site worker.

Statement	Rating (1-5)	Comments
Project goals and schedules are communicated clearly.		
Site meetings are well organized and focused.		
All concerns are treated promptly by the manager.		

## 2. Support

Evaluate the degree of support provided by both the project manager and site leadership.

Statement	Rating (1-5)	Comments
Resources are adequately provided to finish the tasks.		
The project manager supports resolution of on-site issues.		
Coordination of subcontractors is well-managed.		

## 3. Team Performance

Rate the performance and contribution of the team towards the construction project.

Statement	Rating (1-5)	Comments
Project milestones and priorities are known by the team.		
The work is performed as scheduled.		
Conflicts or delays are managed satisfactorily.		

## 4. Improvement Suggestions

Present specific suggestions for the improvement of site operations, project management or team collaboration.

Area	Suggestions
Communication	
Support	
Team Performance	
Safety & Compliance	

## 5. Open-Ended Comments

Additional comments or thoughts about the construction project. (Optional)
